

## Marin Organic School Lunch & Gleaning Program

### SCHOOL LUNCH INTERNSHIP APPLICATION

Please apply today to be considered for  
our Summer-Fall Internship positions.

The Marin Organic School Lunch and Gleaning Program is helping to transform the school lunch choices for our kids. Five years ago, Marin Organic saw the potential in creatively connecting local farms to local schools to help our communities thrive. Now this extraordinary program each week enables 10,000 students from more than half of Marin's schools to eat organic foods grown in Marin, while actively fostering a strong sense of place in children. Join us in our work!

Our work with School Lunch is holistic and innovative in its approach, including selling and delivering foods to schools with the MO truck, gleaning extra foods from the fields for donation with the MO Glean Team, teaching kids about food and farming with MO Farm Days, and helping schools become truly sustainable with special events, student clubs, production gardens, and fun cafeteria signage.

Marin Organic is offering two six-month internship opportunities (8 hours per week) to help coordinate our Organic School Lunch and Gleaning Program. Committed parents, students, and community members are equally encouraged to apply.
